YALE TRAP SHOOTERS WON.

Intercollegiate Tournament at Princeton Resulted in a Close Contest.

Special to The New York Times.

PRINCETON, N. J., Nov. 14.—The intercollegiate trap shooting tournament was decided here to-day and resulted in a victory for Yale University, with a total score of 206 kills out of a possible 250. For Princeton, Capt. Archer made a most creditable showing and earned a double triumph by capturing the individual championship and in doing so breaking the inter-collegiate trap shooting record, his score being 47 kills in a possible 50.

The terms of the competition called for teams of five men, each team to shoot at 250 clay birds, from unknown angles, or 50 birds per man. Yale's winning score was 206 kills, while Harvard was second with 205, and Princeton third with 204. The fourth team was the University of Pennsylvania, with 176 kills.

ACEFUL WILL RACE ABROAD.

Whitney and Duryea's Colt to be Shipped to England To-day. ' Aceful, owned by Harry Payne Whitney

and Herman B. Duryea, and engaged in the Epsom Derby of 1903, will be shipped to England to-day, to be trained there by William C. Whitney's trainer, John Huggins, for his English engagements next year, the special desire of his owners being, however, to have him race for the Derby. With Aceful will be sent the three-year-old Slipthrift, who also will be raced in England, though the real purpose of sending him is to provide Aceful with a companion on the voyage.

Aceful, by Mirthful-Myrtle Harkness, was regarded as one of the best, if not the best, of the American two-year-olds in the early Fall, and it then was announced that Whitney and Duryea would send him to England to keep his engagement in the English Derby. The colt met defeats then that caused some doubt as to whether he was as good a horse as had been supposed, but after deliberation his owners determined to send him abroad. The colt was bred by John E. Madden in Kentucky, and after having been sold by that turfman last Spring, was repurchased by Madden and Sold to Whitney and Duryea late in the

Summer. Madden trained him for his new owners to the end of the season, and it was said, retained an interest in the horse's earnings. The entry in the English Derby, made by J. E. Madden, now has been transferred to Whitney and Duryea, however.
